Proceedings of the Joint International Lepton-Photon Symposium & Europhysics Conference on High Energy Physics, Geneva, Switzerland, 25 July-1 August S. Hegarty, K. Potter, E. Quercigh

The proceedings of the Joint International Lepton-Photon Symposium and Europhysics Conference of High Energy Physics cover the full range of front line research in high energy particle physics. The latest results, both theoretical and experimental, are presented and reviews of recent developments in instrumentation and accelerator techniques are included. Volume One summarizes the highly specialized topics presented in the parallel sessions while the second volume contains the review talks given by the invited speakers.
